

User Manual

Starting

To begin, you will enter your pet's name and that's it! Once you click start again you can begin clicking on your pet to gain points and be on your way to getting the best pet.

Upgrades

To make the game more interesting rather than clicking 1000000000 times, you can spend some of your points on 'More points per click' giving you +1 point per click.

There are also 2 items you can buy that give you multipliers on your clicks for a certain amount of clicks. You can get 2x points for 200 clicks (doesn't last as long as it sounds) or 5x points for 80 clicks.

Progress

The main progression is to get all the cosmetics for your pet and look the best out of anyone else.
